We write to remind you that applications for shares and options pursuant to Moby Oil & Gas Limited Prospectus are due on or before 7th July 2004. As a shareholder of Eagle Bay Resources NL, you will recently have received a Prospectus issued by Moby Oil & Gas Limited in relation to a capital raising to fund activities in the Gippsland Basin, particularly in relation to drilling of the well called Moby 1 in Vic/P47. Eagle Bay was the original holder of Vic/P47 and is now Moby Oil & Gas' co-venturer in the Vic/P47 permit. The Moby 1 well in Vic/P47 is planned to be the first well in this program. Its anticipated spud is late September, early October 2004, based on current scheduling.
