UPDATE OF COOPER BASIN PEL-182 DRILLING PROGRAM

The Joint Venture has agreed to drill four wells on a two firm, two option basis (in case of a recurrence of flooding in the Cooper Basin). Given good weather, the four wells will be drilled back to back. Century Rig 3 is on location for Beach Petroleum and has one more well to drill prior to coming to Eagle Bay Resources, currently estimated around 5 – 18 March 2007, depending on weather and any discoveries.
