

## SER signs exclusive worldwide licence to commercialise graphene IP

Strategic Energy Resources Limited (ASX: SER) is pleased to announce that our wholly owned subsidiary, Graphitech Pty Ltd (**Graphitech**), has entered into an exclusive worldwide licence to commercialise the Intellectual Property (IP) generated by the Monash University project titled 'Nanotechnology enabled electrochemical energy storage materials from indigenous natural graphite'. This project was the subject of our first Australian Research Council grant between SER and Monash University, and relates to our super capacitor technology.

The licence has been granted on the following material terms:

- Graphitech has full rights to exploit and commercialise the IP, including by direct sale or by sub-licensing, within the field of energy storage and capacitor materials, and devices from indigenous natural graphite
- The licence is transferable by Graphitech, subject to the consent of Monash (which is not to be unreasonably withheld)
- If Graphitech is successful in commercializing the IP and generates direct revenue or sub-licensing revenue, it will pay Monash a royalty of 3% of gross revenue (in the case of direct sales) and 15% of sub-licensing income.

The IP generated by this project has been the subject of a provisional patent application and is patent pending.

As previously advised to the market, Graphitech is involved in a collaboration with Monash. It has entered into an agreement under which it will have the first right to fund graphene research undertaken by Dr Mainak Majumder's team at Monash and then licence any IP generated by that research with a view to commercialisation.
